EDUCATION

University of FPT   Ho Chi Minh City, 9 District, Viet Nam
Software engineering   *August 2018 – October 2022*
An excellent student in August 2020 at FPT University

PROJECTS

Portfolio Management   *React.js, Redux, Typescript, Material, Git*   Source Code

- * The project used to introduce myself through the website. This project has some specific features such as **overview information, pet project, experiences,** and some mini projects that I coded in the past
- * Developed a clean and modern website using **HTML, CSS, Javascript, Typescript**
- * Optimized website for **speed and user experience**
- * Utilized **responsive design** to ensure compatibility across all devices
- * Deployed on Netlify pages

Youtube V3   *Firebase, Material, React.js, Typescript*   Source Code

- * The website is based on a Youtube design. So this website has some signature features of social media websites including **watching the list of videos by type, watching the content of the video, searching the video by title, and log in with google**
- * Developed a clean and modern website using **Firesbase, HTML, CSS, Javascript, Typescript**
